**Each fund can invest entirely in units of collective investment schemes. Source: State Street Bank International GmbH Paris Branch. The Fund performance figures take into account the annual management charges, but not the initial charges that would be payable. These charges have the effect of reducing the past performance figures shown above. Figures are on a single pricing basis and assume income is reinvested. Past performance is not a guide to future performance. The value of investments and any income from them can go down as well as up and is not guaranteed. This may be due to market fluctuations or changes in exchange rates, or both. This means that investors may not get back the original amount invested.**

1. Yield and fund information is for the unit class A Net Acc.

2. The performance shown is for the A Net Acc share class however this was not launched until 23 October 2012 so any performance before this time is from the R Net Acc share class.

**Important Information**

This document does not provide you with all the facts you need to make an informed decision about investing. More information is available in the Key Investor Information document (KIID) for the fund and in the fund prospectus, both of which are available, free of charge, from Architas. The KIID can also be downloaded from our website at <http://www.architas.com>.

We also recommend that you speak to your financial adviser before making any investment. The adviser can advise you on the number of financial products through which you can invest in this fund. This fund may not be appropriate for investors who plan to withdraw their money within five years..

The Fund does not have a benchmark. Investors can assess the performance of the Fund by viewing the performance data of other funds in the Investment Association's 'Volatility Managed' sector. The Investment Association is a trade body that represent UK investment managers and they group funds with broadly similar characteristics into sectors. This 'sector' contains funds that are managed with the aim of adhering to a set level of volatility (a measure of the size of changes in the value of an investment). The funds in the sector will not have exactly the same characteristics (such as their objectives, level of risk, types of risk or level of volatility) and are therefore not an exact like-for-like comparison. Investors can find details of the funds in the sector and their performance at: [www.trustnet.com](http://www.trustnet.com) and select 'IA Volatility Managed' from the 'Sector' drop down.

Factsheets are produced monthly and the most up to date version is available on [www.architas.com](http://www.architas.com). You can write to us at: Architas Multi-Manager Limited, PO Box 10939, Chelmsford, CM99 2XU. Telephone: 0800 953 0197\*.

Please note that the Fund is priced at 08:00am each day. All market indices are in Pound sterling terms. The discrete performance table shows percentage growth performance. Although we take every care to ensure that the data provided to external sources about our funds is accurate, occasionally discrepancies may occur. We accept no liability for loss due to such discrepancies where a recommendation to invest has, to any extent, relied on the information contained in this Factsheet.
