

### Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

# Architas Global Equity Income Fund

a Sub-Fund of **Architas Multi-Manager Investments ICVC II**  
**Share Class A Income (GB00BYQMFQ86)**

*This Fund is managed by Architas Multi-Manager Limited, part of the AXA Group*

## Objectives and Investment Policy

The investment objective of the Fund is to provide income with some capital growth over the medium to long term.

The Fund will seek to achieve its objective mainly by buying units or shares in other funds ("underlying funds") including funds which are traded on stock exchanges (investment trusts and exchange traded funds). Underlying funds may be managed by Architas, members of their group or third parties and are selected principally on the basis of our assessment of the consistency of their income and overall returns, the risks related to their investment strategies, the strength of their investment processes and the stability of their portfolio management teams.

The underlying funds may also invest in a range of financial instruments including tradable debt (bonds) issued by companies, governments and other institutions, some of which can easily be converted into cash (money market instruments), freely transferrable rights to buy other investments at a future date (warrants), deposits, financial contracts that derive their values from those of other investment instruments or indices (derivatives).

While the Fund will mostly invest in other funds, when there are specific benefits in doing so, it may also invest directly in the

financial instruments mentioned above. The Fund may use derivatives with a view to; generating investment returns; reducing risk or costs; or generating additional capital or income in a manner consistent with the Fund's risk profile. The Fund may use derivatives for Efficient Portfolio Management and investment purposes. For example, where it may not be economical or efficient to use investment funds, the Fund may use derivatives to adjust its exposure to foreign currencies or asset classes, or to track the performance of particular financial indices. The Fund may use investment techniques including borrowing cash and making investments intended to offset potential losses that may be incurred by other investments (hedging).

Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

If you hold income shares, we will pay you any income earned from the Fund's investments on a quarterly basis. If you hold accumulation shares, we will automatically include income earned in the value of your shares.

You may sell your investment on a daily basis.

The base currency of the Fund is GBP.

## Risk and Reward Profile

This risk indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.

The lowest category does not mean risk free.

The risk and reward category may shift over time and is not guaranteed.

Your investment in the Fund is not guaranteed. The Fund is invested in financial assets and instruments and uses financial techniques that are subject to levels of variation, that may result in gains or losses.

Funds of category 5 have shown in the past a medium to high volatility. The volatility describes how much the value of the fund went up and down in the past. The shares of a fund of category 5 might be subject to medium to high price fluctuations based on the historical volatility observed.

The following are additional risks not covered by the risk and reward category:

**Fund of Funds - Liquidity Risk:** The Fund invests in other funds and its liquidity depends upon the liquidity of those underlying funds. If underlying funds suspend or defer the payment of redemption proceeds, the Fund's ability to meet redemption requests may also be affected.

**Counterparty Risk:** The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Fund to financial loss.

**Currency Risk:** The Fund invests in overseas markets and the value of the Fund may fall or rise as a result of changes in exchange rates.

**Derivatives Risk:** Some of the underlying funds may invest in derivatives, which can, in some circumstances, create wider fluctuations in their prices over time.

**More information in relation to risks in general may be found in the "Risk Factors" section of the prospectus.**

## Charges

The charges you pay are used to pay the cost of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

### One-off charges taken before or after you invest

Entry charge	none
Exit charge	none

This is the maximum that might be taken out of your money before it is invested (entry charge) and before the proceeds of your investment are paid out (exit charge).

### Charges taken from the Fund over a year

Ongoing charge	0.99%
----------------	-------

### Charges taken from the Fund under certain specific conditions

Performance fee	none
-----------------	------

The entry and exit charges shown are maximum figures. In some cases, you might pay less - you can find this out from your financial adviser or distributor.

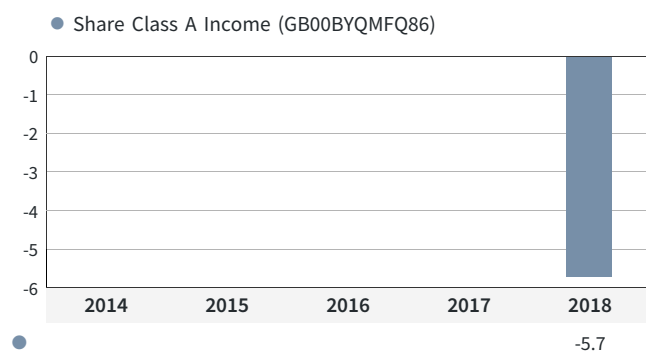

The ongoing charges figure is based on the expenses for the twelve month period ending 31st December 2018. This figure may vary from year to year. It excludes:

- Performance fees
- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another fund.

There is a charges cap in place for this share class. Architas will not permit the ongoing charges figure to exceed 0.99% without first giving notice to the investors.

**For more information about charges, please see the section entitled "Fees and Expenses" in the Fund's prospectus which is available on request free of charge from the manager.**

## Past Performance

Past performance is not a reliable indicator of future performance.

The past performance shown here takes account of ongoing charges. The entry/exit fees are excluded from the calculation of past performance.

The Fund started to issue shares in July 2017.

Past performance has been calculated in GBP and is expressed as a percentage change of the Fund's net asset value per share at each year end.
