

Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Architas Positive Future Fund

a Sub-Fund of **Architas Multi-Manager Investments ICVC II**
Share Class S Accumulation (GB00BJGTBS82)

This Fund is managed by Architas Multi-Manager Limited, part of the AXA Group

Objectives and Investment Policy

The Fund seeks to achieve capital growth while investing at least 80% of its portfolio in investment funds which promote sustainable and responsible investment.

The Fund is an actively managed fund of funds.

At least 80% by value of its assets consists of units or shares in other funds which pursue a stated sustainable and responsible investment objective, utilising at least one of the following four approaches (see also Glossary at <https://uk.architas.com/retail-clients/funds/glossary>):

1. Positive/best-in-class screening;
2. Integration of Environmental, Social, Governance (ESG) factors;
3. Sustainability themed investing;
4. Impact investing.

The Fund is not constrained in respect of geography, asset type or sector. It follows a 'multi-asset' approach, meaning that it seeks exposure to different asset classes. It invests both in equity funds and in fixed income funds. The Fund may also invest in investment trusts that finance projects which address one or more of the UN's Sustainable Development Goals.

(<https://sustainabledevelopment.un.org/?menu=1300>)

The Fund may invest in funds managed by Architas or its associates.

The Fund may also invest directly or indirectly (through other funds) in a range of asset classes and financial instruments including in shares, debt instruments (bonds), financial contracts that derive their values from those of other investment instruments or indices (derivatives), other transferable securities and may also seek exposure to other asset classes such as real property.

In normal circumstances, up to 10% of the Fund may also be held in money market funds (funds that hold debt which can easily be converted into cash), cash and deposits. Architas has discretion to increase this limit in exceptional market conditions.

The Fund may use derivatives to reduce risk or to manage the Fund more efficiently (often referred to as "efficient portfolio management"). The Fund may only use derivatives for investment purposes upon giving Shareholders sixty days' notice. Currently the Fund is not intending to use derivatives.

The Fund does not have a benchmark.

Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

We will automatically include income from the Fund's investments in the value of your shares.

You may sell your investment on a daily basis.

The base currency of the Fund is GBP.

Risk and Reward Profile

This risk indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.

The lowest category does not mean risk free.

The risk and reward category may shift over time and is not guaranteed.

Your investment in the Fund is not guaranteed. The Fund is invested in financial assets and instruments and uses financial techniques that are subject to levels of variation, that may result in gains or losses.

Funds of category 4 have shown in the past a low to medium volatility. The volatility describes how much the value of the fund went up and down in the past. The shares of a fund of category 4 might be subject to low to medium price fluctuations based on the historical volatility observed.

The following are additional risks not covered by the risk and reward category:

Fund of Funds - Liquidity Risk: The Fund invests in other funds and its liquidity depends upon the liquidity of those underlying funds. If underlying funds suspend or defer the payment of redemption proceeds, the Fund's ability to meet redemption requests may also be affected.

Currency Risk: The Fund invests in overseas markets and the value of the Fund may fall or rise as a result of changes in exchange rates.

Counterparty Risk: The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Fund to financial loss.

Credit Risk - Bonds: The Fund may invest in bonds which provide a fixed or variable return and which are a form of loan, the value of which depends on the issuer being able to make its payments. There is a risk that the issuer will fail to do so. Although the Fund generally invests in bonds with high ratings, a high rating does not guarantee an issuer's ability to pay.

Credit Risk - Non-Investment Grade Bonds: The Fund may invest in bonds issued by entities considered to be more likely to default (non-investment grade). If an issuer does default this may result in the Fund and your investment suffering a loss.

Derivatives Risk: Some of the underlying funds may invest in derivatives, which can, in some circumstances, create wider fluctuations in their prices over time.

More information in relation to risks in general may be found in the "Risk Factors" section of the prospectus.

Charges

The charges you pay are used to pay the cost of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	none
Exit charge	none

This is the maximum that might be taken out of your money before it is invested (entry charge) and before the proceeds of your investment are paid out (exit charge).

Charges taken from the Fund over a year

Ongoing charge	1.10%
----------------	-------

Charges taken from the Fund under certain specific conditions

Performance fee	none
-----------------	------

The entry and exit charges shown are maximum figures. In some cases, you might pay less - you can find this out from your financial adviser.

The ongoing charges figure shown here is an estimate of the annualised charges. An estimate is being used because the Fund (or share class) was newly launched or it has been launched within the reported period. The Fund's annual report for each financial year will include detail on the exact charges made. This figure may vary from year to year. It excludes:

- Performance fees
- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another fund.

There is a charges cap in place for this share class. Architas will not permit the ongoing charges figure to exceed 1.10% without first giving notice to the investors.

For more information about charges, please see the section entitled "Fees and Expenses" in the Fund's prospectus which is available on request free of charge from the manager.

Past Performance

Past performance is not a reliable indicator of future performance.

The past performance shown here takes account of ongoing charges. The entry/exit fees are excluded from the calculation of past performance.

The Fund started to issue shares in August 2019.

Past performance has been calculated in GBP and is expressed as a percentage change of the Fund's net asset value per share at each year end.
